About ISN

Formed in 2001, ISN Support Services Brokerage provides person-centered case management to over 600 adults with intellectual and developmental disabilities in 8 Oregon counties.

ISN Personal Agents work alongside individuals to identify and address areas of need. **We strive to maintain a 1:38 ratio** to ensure individuals we serve and staff have the time and tools to provide excellent services based on the values of self-determination.

While ISN provides support, resources and the opportunity to thrive, it is the peace of mind ISN brings to individuals we serve and their families that stands out.

"I want Brandi to be able to do whatever she needs to do without somebody having to be right there."

-Coral, Parent of Individual Served by ISN

"I'm getting to the age where I have to think about what happens when I'm not around, and I want Brandi to be able to do whatever she needs to do without somebody having to be right there for her," says Brandi's mom, Coral. Carol takes comfort in knowing that Brandi is learning the skills she needs to become more independent every day.

Our purpose is to help you with self-determination: the means and authority to determine how you want to live your life.
